- **The above mentioned institutions are some of the advised locations for completing the community service programme. Please note, however, that Ardenne has not made any arrangement with these institutions for students to complete their hours with them. These institutions were selected based on students' successful completion of their hours with them over the years. It is therefore up to the parent/guardian and the student to make contact with institutions to see if you can be accommodated.**
- **The programme can also be completed at any other organization, that does not confine students to doing clerical work only, and will prepare them to give back to Jamaica and help the less advantaged. Organizations including homes, churches, hospitals, nurseries and schools (for instance homework/tutoring programs), that is keen on voluntarism can be selected.**
