Dear Parent/Guardian:

I have received your feedback on Community Service. The programme is an extremely important feature of Ardenne's thrust to ensure that we educate the whole child who remains competitive and a globally aware citizen of Jamaica and the world.

With this in mind, we will not remove the programme or exempt anyone from participation. What we have done is to include other options that will offer the similar experience in keeping with our philosophy of producing rounded students.

Please see the adjustments to the revised document in red.
